

DESIGNING HOMES SINCE 1995

WE TURN
SPACES INTO **HOMES**

Sagar Bhadbhade
Managing Director

Leena Bhadbhade
Managing Director

Our surroundings have an impact on how we feel everyday and can influence our well-being. Hence team Ferroart firmly believes in functional and luxurious interiors. Designing homes since 1995, Ferroart has introduced luxury interiors with engineering precision. Winner of the Times Business Awards 2021 for best Turnkey Interior Designing Firms and Winner of National Business and Services Achiever's Award 2021 for best interior designer Ferroart is synonymous with luxury interiors.

Our work has been recognized and featured in multiple national and global publications which include Good Homes, Trends, Interiors Lover, Homes and Styles, Zimbabwe, India Homes, House T Homes, India Today Homes, Architects and Builders Magazine, The Architects Diary, Dream Home among others.

Our designs are aligned with the vision of our clients. We design narratives which we align with the vision of our clients. We incorporate their needs to create functional and timeless interiors.

Ferroart resonates with skill technique & fine craftsmanship. We design spaces that are welcoming, textured, balanced, layered with a warmth and speak about the people inhabiting it.

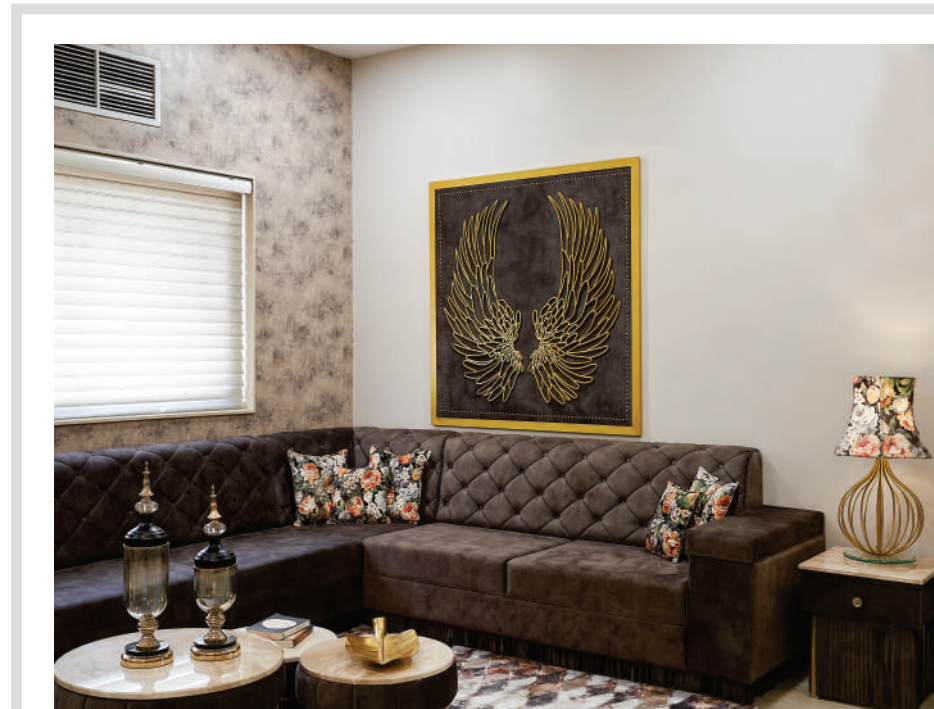

TURNKEY INTERIORS

Where art meets Technology

Our homes should be filled with comfort wellness and positive vibes. At Ferroart we have taken the interior designing scenario to the next level by amalgamating art with technology.

We have a team of engineers, architects, designers and artists to get the immaculate finish. Only engineering can bring timebound completion of the projects, unmatched finish and exceptional speed of working.

Apart from this the ISO certified company has recently launched Central India's biggest interior designer studio at D-27, Hingna MIDC, Nagpur. The massive designer studio is spread over 22,000 Sq. ft. It provides a real glimpse of a dream home. It showcases variety of designing styles for the customers to understand the designing concept. We have an in-house selection facility for various materials like fabrics, curtains wallpapers, laminates etc. The designing of furniture begins as soon as the site work commences. It thus saves time. The important aspect is the design experience centre that brings clarity on dimensions, material, colour combination and utilization of space etc.

WE TURN SPACES INTO HOMES

WHY FERROART?

■ Infrastructure :

We are a private limited company and an established brand since 1995. We have 22000 sq.ft. of design experience centre. We also have our own manufacturing unit. We are into this business for more than 27 years, with 2000+ projects in Nagpur, Mumbai, Pune, Bengaluru, Nanded, Amravati, Chandrapur, Bhilai, Raipur, Korba, Lonavala. We have a team of engineers, designers and artists working together.

■ Space Management :

Space management is a fundamental aspect of interior designing. It involves analysis of the space and knowing exactly what things are to be placed in it and where. It is our speciality. Hence we understand the requirements of our customers and design the space accordingly. We take utmost care to design the space accordingly to the lifestyle of the customers.

■ Functionality :

Anything is said to be functional if it is practical and useful. We design homes keeping this aspect in mind. We often recommend creating versatility in the layout of homes to create social areas and private spaces.

■ Ergonomic Furniture :

We design ergonomic furniture designing which means the furniture pieces like sofas, beds, chairs which we design are specially designed to help our body to maintain a proper body posture, reduce risks of musculoskeletal problems, joint problems, back issues, neck problems, etc. Manufacturing ergonomically designed furniture requires precision, research, and a passionate nature to give the best to our customers. We have been designing products since 27 years.

■ Time Management :

We are keen to complete the project within the set time frame. We complete 3,000 to 4,000 sq.ft interior project within 2-3 months.

■ Processing (Factory Finish Customised Furniture) :

Once we have completed the designing process, the designs are sent to our manufacturing unit, where we manufacture your furniture pieces. We have the best machinery and amazing staff which is always willing to work for you. Unlike the traditional methods, we use modern technology which improves efficiency, reduces labour, reduces wastage and saves time. It gives us a scope to produce more furniture in less time. We also have a large storage area where we store the finished goods until the civil work is completed.

■ Quality :

When we think of quality, we use the best. We never compromise in terms of quality. Here are some companies whose products we will use in your home:

Hardware Fittings - Hettich, Haffle, Grass [all leading German Brands]

Lightings and Fans - Philips, Orient, Crompton, Havells

Plywood and Laminate - Century, Greenply, Merino

Paints - Asianpaints, Berger

Wallpaper - Handpicked European Brands

Pasting Solutions - Kilbrit, Henkel [All Leading German Brands]

Fabrics Upholestry - D Decor, F&F Sarom, SJ, Stylla, GMF

Carpets and Rugs - Handpicked from leading brands.

Accessories - Handpicked from leading manufacturers .

■ Design Style :

Stylish means fashionable and elegant. We design our project such that there is a place for everything and every thing at its place along with the modern trending styles from all over the world. We have a research team which is constantly working for new designs and searching for new ways to style your house. We truly believe by the saying design is in the detail.

■ Lighting :

Lighting is an integral part of interior designing with a purpose to highlight the elements of the space. We provide lighting solution to enhance the aesthetic appeal of the space. It also creates various moods which can be obtained by using various colours of light. we understand the importance of lightning in interior designing, so we have lots of new concepts which include downlighters, inbuilt lightning systems in wardrobes, dressing units, etc and we also have backlit mirrors and backlit murals which enhances the space. We also have decorative lighting like chandeliers, spot lights, etc.

■ One Window System :

One window system is a new concept in which all the requirements like curtains, fabrics, carpets, wooden flooring, blinds, veneers, laminates, pop, etc all of the work can be solved at one place, which means you don't have to go to different people to get your work done. We have a team for all the civil changes you may need, a team for manufacturing, a team for assembly of your furniture products, a team for research and a team for all your designing and selection.

We advice and offer consultations for choosing and sourcing tiles, fabrics, advice as to how to incorporate well-being in homes.

■ Live Design Models :

We have design experience centre which displays our products and gives our customer a clear idea of what we exactly do. Our customers can experience and feel the materials, fabrics used in the products which is not possible by using software.

■ Professional Service :

Once the work begins we invite the clients for a factory visit. We have no hidden charges and we have transparency of the materials we use in the project. All the work is done according to terms and conditions and the budget is not disturbed, We also provide after sales service.

■ Positivity Infused Projects :

Positivity infused projects include the vastu shastra and charging the space and furniture by giving mantras. We also change your civil plans according to vastu which brings positivity to your space. We believe that completing projects is not just business, its beyond business. We hope to imbibe positivity, peace, happiness and prosperity into the homes of our customers.

■ Unique Factory Visit Experience :

We invite our clients for a factory visit... Here they can see and enjoy the process of manufacturing done using latest machinery...

“Design is in the Details”

At Ferroart, we try to work on finer detailing in each specific space, wall paintings, furniture elements, murals, hand paintings, lighting to bring out design aesthetics and design balance. We focus on functionality, ease of using the spaces and furniture elements. We try to ensure seamless connectivity between the spaces. Our designs are inspired by nature, travel and people. Let's join this design movement called “**Ferroart**”
